

Indo-European Education Foundation is a Polish NGO non-profit organisation operating since 2013. The Foundation's mission is to create a bridge between India and Poland based on the project: **Academia-Industry Interlinked model of Business Cooperation**. The project aim is to support the program of internationalisation of Polish higher education institutions and to increase the involvement of science and higher education in the economic growth of the country by creating opportunities for entrepreneurs and tools to develop opportunities on a highly potential Indian market.

Indo-European Education Foundation

A Bridge between India, Poland and EU

As part of its activities, the Foundation implemented dedicated programs towards higher education in order to support student's recruitment for Polish Universities: "**CET-India Test**" is the **Common Entrance Test (CET)** for Indian students seeking higher education in Poland, which assure the quality of students and financial ability before joining the universities in Poland. IEEF has also initiated by launching "**Poland Go India**" project for educational cooperation, and organized many national and international conferences, seminars, trainings and publications in India as well as in Poland for further cooperation in the field of research and industry.

All Applicants from India and Indian region are suggested to contact our academic partner IEEF . IEEF is responsible for all academic, non-academic and corporate cooperation
